Thursday 14th November 2019
2pm - 4pm

THE SECRET MEDICINAL BENEFITS OF HONEY BEE PRODUCTS

A Journey into the healing hive

With Dr Gerry Brierley Ph.D MA Dip.M

After many years of chronic illness due to Lyme disease following a tick bite, Dr Gerry discovered the honey bee and her healing venom. This provoked 3 years of personal research on the medicinal side of the 8 honey bee products in the hive. Often people associate honey as being the only product which honey bees produce, however, there are many more. Dr Gerry talks about the ancient medicinal history of honey bees, along with current day scientific evidence of their uses in treating over 800 disorders and diseases. The mystical and magical honey bee, is probably one of nature's most comprehensive and revered alchemists and you will be captivated by learning about our little, yet magnificent, healing honey bee.

Dr Gerry is also the author of *The Secrets of Hope the Honey Bee* available on Amazon
